

PRESS RELEASE

A Great Classic is Back

Jack Knight are proud to announce the return of a classic, a range of the original 5 and 6 speed mini gearboxes are now being produced.

Jack Knight have been designing and manufacturing automotive components for over 50 years.

Due to the demand from customers around the world we are releasing both the 5 and 6 speed helical and Dog Straight Cut gearsets in the gearbox, the gearbox can be supplied with or without the differential and a choice of crownwheels and pinions.

Three limited batches are planned for 2008, the first in April, then August and December.

These additions to our extensive range of drivetrain components can only be sourced through JB Autos, Turtle Trading or direct from us. For further information please contact our technical sales team
